

Meet Alumwell's Therapy Dog

It's All
About
Me!

Name: Percy Lawrenson

Birthday: 24/04/16

Breed: Black Labrador

Home

I love being at school and race down the corridors every morning to show how happy I am! My home classroom is in class 11 where you'll often find me asleep on my bed. I love to venture around school and visit children in their classes, the playground and of course the sandwich rooms!

Diet

My mum feeds me twice a day although I will try to tell everyone that I'm starved! I'm given dry food which I eat so quickly I have to have a special bowl to slow me down! My favourite foods are bread, sausages and cheese, which I get as a treat when I'm really well behaved! As a Labrador, I love ALL food so you have to remember not to feed me human food in school or leave it lying around- I'll always find it and always eat it!

Companionship

My best friend is my brother, Dougie who you probably know! However, I also love playing and spending time with Jazzee- even if she can be annoying! At home, I have a friend who is a cat but she doesn't like it when I try to kiss her! To relax, I love sleeping on my mom's lap or on my favourite chair with a blanket!

Hobbies

I love running in the park the most. I always try to find the biggest stick I can and show it off to all the passers-by! I really love swimming and finding muddy puddles to wallow in! My favourite place to go on holiday is the beach because I love to dig rocks in the sand and jump over the waves in the sea!
