

Aspiration and Leadership at Alumwell Junior School

“Excellence and Enjoyment for Everyone”

Encouraging our children to make a highly positive and substantial contribution to the school.
Preparing children for their adult life.

Youthquake

This is a group of children who want to make changes and are elected by their classmates. They play an active role in whole-school fundraising initiatives. Working alongside staff, their class and year group, they help to suggest improvements, support events, and contribute to positive changes across the school community.

House Team Captains

Team Captains are elected from Year 6 pupils, with Year 5 pupils invited to apply during the Summer Term. Each team is led by two captains who organise and lead fundraising events, collect team points, and announce results during assemblies, fostering teamwork, leadership, and school spirit.

Secondary Ready

We maintain strong links with secondary schools to provide additional transition workshops within our school. Pupils benefit from a smooth and supportive transition to their next school, while parents receive guidance with applications and clear communication throughout the process.

Sports Leaders

Sports Leaders work alongside PE leads to support lunchtime sports and play activities. Play leaders encourage active participation and teamwork. They provide pupil voice to help improve PE and sports at school.

Subject Ambassadors

Nominated by their class teacher or subject leader to represent a specific subject. As a Subject Ambassador, you will promote enthusiasm for your subject, encourage others to get involved, and provide valuable feedback through the pupil voice to help improve learning for everyone.

Digital Leaders

Digital Leaders help promote computing skills and e-safety across the school. Working closely with staff, they support safe and responsible use of technology and encourage others to develop their digital knowledge.

Dog Walkers

Chosen pupils help care for and walk the school dogs, ensuring they get regular exercise and attention. This role promotes responsibility, kindness, and teamwork while supporting the wellbeing of our school pets.
